Black & white photo with creative border

Your wedding is much more than just an event – it is a celebration of the love you share and the beginning of your life as man and wife.

All the dreams, work, and planning for this special day will soon be a reality.

What you really want is to capture the love, emotion, family, friends, *and the feeling* of your wedding for a lifetime.

Snapshot photos just can't capture the feeling.

Our approach is to catch the unfolding story of your wedding, the planned moments and all those you could never plan for. Then, we spend hours in the darkroom color correcting, retouching, and adding artistic effects to give you the heart and soul of your wedding.

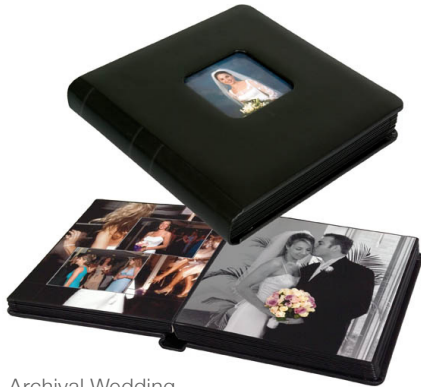

Take a look at this brochure and the examples on our website. Call or e-mail us with your questions or for a no-obligation estimate for your wedding.
